

How to RECORD MS + STEREO (on Sonosax SXR4)

*we just need a cable TA3 F to TA3 F (from output to Line input channels 5 & 6)

MS stereo Microphone - M (grey) > XLR 1 > Track 1 > line Out (MS matrix mode)
- S (red) > XLR 2 > Track 2 > line Out (MS matrix mode)

Input 5 & 6 > tracks 3 & 4

* best to monitor only tracks 3 & 4 in stereo mode
